

Limited edition pens from Visconti

As homage to Carl Gustaf Jung, Italian premium brand Visconti has introduced the Alchemy limited edition, an unique pen with dualism symbolically seen throughout. This magnificent pen has two nibs, two ink reservoirs and is embellished with two metals on either side, exquisite gold and silver vermeil. Both the nibs are made of 18k gold and the body from classic, rich red resin. In addition, the gold and silver trim is decorated with expensive 4k diamonds and rubies. The Visconti Alchemy Limited Edition fountain pen fills via an eyedropper and is available in fine and medium nib sizes. Only 1,038 pieces are available worldwide.
